

Pumping Solutions from Yalong

YaLong has long been a leading supplier of pumping solutions for the Energy, Industrial, Chemical, Mining, Pulp and Paper, Food, medical, Steel/Aluminum, Reverse Osmosis, Glass, detergent, high pressure scale-washing, geological, rock mechnic, electric power, and Municipal markets.

Many factors have contributed to our success, but the most important is our ability to provide unmatched overall value and true pumping solutions for our customers. We have redefined the traditional expectations in the industry by setting new standards for low cost of owner-ship, long service life, and ease of maintenance.

Talented technical persons, high design level, complete quality control system, excellent after-sales team and service are available in the company.

We deliver value by:

Offering the most comprehensive line of reciprocating, positive displacement pumps available on the market today. Our wide range of cost effective pumps are available in a range of designs and materials. With over 20 unique pump frame sizes to choose from no matter if your service requires 2HP or 1000HP, chances are that YaLong has an optimal pump for your application.

Providing the experience and total capabilities that few other suppliers can match. We have the in-house expertise to carefully review your requirements and assist with the selection of the best products to meet the needs of your application. If your needs re-quire it, we can unitize the pump and provide anything from simple engine or electric motor driven pump skids to complete enclosed pumping stations.

All series of products of our company have mutual characteristics in advanced design,modern structure,stable run, convenient maintenance,safe and reliable sealing,long life in easy-wear parts, high volumetric efficiency, etc. On the base of existing series of products, tailor-made product with special specification can be provided to the users.

Our primary reciprocating pump offerings are the T Series and Q Series pumps. These pumps are horizontal reciprocating pumps offered in either a triplex or quintuplex configuration. All are available as plunger pumps, and many are also available piston pumps. These pumps are outstanding performers and extremely cost effective. They feature conservative pressure ratings and slow speed operation for enhanced durability.

These are high pressure reciprocating pumps which have 24 types with 800 different specifications. Highest output pressure available is 280 MPa. And theoretical flow rate 0.2-210 m³/h. These high pressure pumps are used as water injection pumps used in oil field,pump for tank-filling of liquified carbon dioxide, high pressure steam boiler feed water pump, CO₂ supercritical extraction pump, high pressure mud pump, cement grouting pump, pressure test pump, copper liquid pump, Detergent sludge pump, reciprocating crude oil pump, sea water pump, reverse osmosis desalination pumps, high pressure dephosphorizing pump used in metallurgical industry, cleaning pump, pipe cleaning pump, pressurizing pump, hyper pressure pump and The polymer injection pumps.

3CQ series These are pumps for intake and extraction of liquified gas. Their maximum output pressure is 120 MPa. These pumps have following characteristics, ie: advanced technology, compact structure, high efficiency, low noise, low gas-sealing factor, easy maintenance and reliable performance which reaches domestic leading level. They are widely used in transportation of liquified gas and in supercritical extraction of carbon dioxide in medical and food industries.

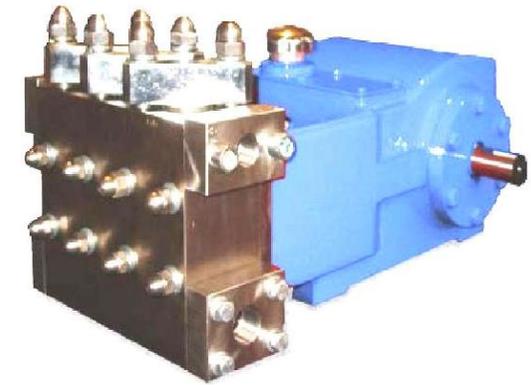

All series of products of our company have mutual characteristics in advanced design, modern structure, stable run, convenient maintenance, safe and reliable sealing, long life in easy-wear parts, high volumetric efficiency,etc. On the base of existing series of products, tailor-made product with special specification can be provided to the users.

In the aim of 'All are for users'. We are prepared to serve sincerely for all users.

The YALONG Model T9 is a single acting triplex plunger pump rated at 9.5 HP in continuous duty services and up to 13.8 HP in intermittent duty. This versatile pump is offered with a variety of material and design options that make it ideal for general industrial, reverse osmosis, and typical applications involved in the production of oil and natural gas.

The YALONG Model T50 is a single acting triplex plunger pump rated at 50 HP in continuous duty services and up to 62HP in intermittent duty. This versatile pump is offered with a variety of material and design options that make it ideal for general industrial, reverse osmosis, and typical applications involved in the production of oil and natural gas.

Specifications

The YALONG Model T150 is a single acting triplex plunger pump rated at 153 HP in continuous duty services and up to 202 HP in intermittent duty. This versatile pump is offered with a variety of material and design options that make it ideal for general industrial, reverse osmosis, and typical applications involved in the production of oil and natural gas.

Specifications

	English Units	Metric Units		Continuous	Intermittent
Stroke Length	3.75 in	95 mm	Rated bhp	153HP	202 HP
Rated Rod Load	12786 lb	5800 Kg	Maximum Speed	375 rpm	495 rpm
Pump Weight	1984 lb	900 Kg	Minimum Speed	90 rpm	75 rpm
Oil Capacity	10 gal	38 L	Max. plunger size x stroke length.	101x80mm	
Max. Fluid Temp	752 °F	400 °C	Crankshaft extension Dia.x length	86x153 mm	
Mechanical Efficiency		90%	Keyway (width x depth x length)	25x9x145 mm

The YALONG Model T190 is a single acting triplex plunger/piston pump rated at 190HP in continuous duty services and up to 219HP in intermittent duty. This versatile pump is offered with a variety of material and design options that make it ideal for general industrial, reverse osmosis, and typical applications involved in the production of oil and natural gas.

Specifications

The YALONG Model Q290 is a single acting quintuplex plunger pump rated at 290 HP in continuous duty services and up to 346 HP in intermittent duty. This versatile pump is offered with a variety of material and design options that make it ideal for general industrial, reverse osmosis, and typical applications involved in the production of oil and natural gas.

The YALONG Model Q410 is a single acting quintuplex plunger / piston pump rated at 410 HP in continuous duty services and up to 458 HP in intermittent duty. This versatile pump is offered with a variety of material and design options that make it ideal for general industrial, reverse osmosis, and typical applications involved in the production of oil and natural gas.

Specifications					
	English Units	Metric Units		Continuous	Intermittent

Standard Materials of Construction

Standard materials of construction for key components are provided below for material groups A-F. Many options are available, particularly for valves, packing, plungers, and o-ring seals, to meet the needs of special fluids, temperatures, and other requirements. Consult your YaLong representative for more details and for information regarding materials.

Material Group A: 1045 Carbon Steel		Material Group F: 316 Stainless Steel	
Fluid Cylinder	1045 Carbon Steel with Nickel-Boron	Fluid Cylinder	316L Stainless Steel
Coating		Stuffing Box	316 Stainless Steel
Stuffing Box	420 Stainless Steel	Adjusting Nut	Aluminum Bronze
Adjusting Nut	Aluminum Bronze	Throat Bushing.....	Aluminum Bronze
Throat Bushing.....	Aluminum Bronze	Packing Follower Ring	Aluminum Bronze
Packing Follower Ring	Aluminum Bronze	Lantern Gland	Aluminum Bronze (if applicable)
Lantern Gland	Aluminum Bronze (if applicable)	Top Cover	316 Stainless Steel
Top Cover	420 Stainless Steel	Front Cover.....	316 Stainless Steel (if applicable)
Front Cover.....	420 Stainless Steel (if applicable)	Plunger	Tungsten-Carbide on 304 Steel Base
Plunger	Tungsten-Carbide on Steel Base	Fluid End Studs.....	Alloy Steel, Nickel-Boron Coated
Fluid End Studs.....	Alloy Steel, Nickel-Boron Coated	Fluid End Nuts	Alloy Steel, Nickel-Boron Coated
Fluid End Nuts	Alloy Steel, Nickel-Boron Coated	O-Rings.....	HNBR Rubber
O-Rings.....	HNBR Rubber	Packing.....	Braided Teflon-Kevlar
Packing.....	Braided Teflon-Kevlar	Valve Assembly1	17-4 Stainless Steel
Valve Assembly1	17-4 Stainless Steel	Material Group E: 304 Stainless Steel	
Material Group B: 4140 Alloy Steel		Fluid Cylinder	304 Stainless Steel
Fluid Cylinder.....	4140 Alloy Steel	Stuffing Box	316 Stainless Steel
Stuffing Box	420 Stainless Steel	Adjusting Nut	Aluminum Bronze
Adjusting Nut	Aluminum Bronze	Throat Bushing.....	Aluminum Bronze
Throat Bushing.....	Aluminum Bronze	Packing Follower Ring	Aluminum Bronze
Packing Follower Ring	Aluminum Bronze	Lantern Gland	Aluminum Bronze (if applicable)
Lantern Gland	Aluminum Bronze (if applicable)	Top Cover	2205 Stainless Steel
Top Cover	420 Stainless Steel	Front Cover.....	2205 Stainless Steel (if applicable)
Front Cover.....	420 Stainless Steel (if applicable)	Plunger	Tungsten-Carbide on 304 Steel Base
Plunger	Tungsten-Carbide on Steel Base	Fluid End Studs.....	Alloy Steel, Nickel Boron Coated
Fluid End Studs.....	Alloy Steel, Nickel-Boron Coated	Fluid End Nuts	Alloy Steel, Nickel Boron Coated
Fluid End Nuts	Alloy Steel, Nickel-Boron Coated	O-Rings.....	NBR Rubber
O-Rings.....	HNBR Rubber	Packing.....	Braided Teflon-Kevlar
Packing.....	Braided Teflon-Kevlar	Valve Assembly1	17-4 Stainless Steel
Valve Assembly1	17-4 Stainless Steel	Material Group G: 2205 Duplex Stainless Steel	
Material Group C: Nickel Aluminum Bronze		Fluid Cylinder.....	2205 Duplex Stainless Steel
Fluid Cylinder	C955 Nickel Aluminum Bronze	Stuffing Box	2205 Stainless Steel
Stuffing Box	316 Stainless Steel	Adjusting Nut	Aluminum Bronze
Adjusting Nut	Aluminum Bronze	Throat Bushing.....	Aluminum Bronze
Throat Bushing.....	Aluminum Bronze	Packing Follower Ring	Aluminum Bronze
Packing Follower Ring	Aluminum Bronze	Lantern Gland	Aluminum Bronze (if applicable)
Lantern Gland	Aluminum Bronze (if applicable)	Top Cover	2205 Stainless Steel
Top Cover	316 Stainless Steel	Front Cover.....	2205 Stainless Steel (if applicable)
Front Cover.....	316 Stainless Steel (if applicable)	Plunger	Tungsten-Carbide on 304 Steel Base
Plunger	Tungsten-Carbide on 304 SS Base	Fluid End Studs.....	Alloy Steel, Nickel-Boron Coated
Fluid End Studs.....	Alloy Steel, Nickel-Boron Coated	Fluid End Nuts	Alloy Steel, Nickel-Boron Coated
Fluid End Nuts	Alloy Steel, Nickel-Boron Coated	O-Rings.....	HNBR Rubber
O-Rings.....	HNBR Rubber	Packing.....	Braided Teflon-Kevlar
Packing.....	Braided Teflon-Kevlar	Valve Assembly1	17-4 Stainless Steel
Valve Assembly1	17-4 Stainless Steel	Note: 1. Valve materials are typical, however consult YaLong for detailed information if required.	
Material Group D: 420 Stainless Steel		2. YaLong reserves the right to modify the materials shown on this list without notice	
Fluid Cylinder	420 Stainless Steel		
Stuffing Box	316 Stainless Steel		
Adjusting Nut	Aluminum Bronze		
Throat Bushing.....	Aluminum Bronze		
Packing Follower Ring	Aluminum Bronze		
Lantern Gland	Aluminum Bronze (if applicable)		
Top Cover	420 Stainless Steel		
Front Cover.....	420 Stainless Steel (if applicable)		
Plunger	Tungsten-Carbide on Steel Base		
Fluid End Studs.....	Alloy Steel, Nickel-Boron Coated		
Fluid End Nuts	Alloy Steel, Nickel-Boron Coated		
O-Rings.....	HNBR Rubber		
Packing.....	Braided Teflon-Kevlar		
Valve Assembly1	17-4 Stainless Steel		

The YALONG Model T120 is a single acting triplex plunger pump rated at 120 HP in intermittent duty services . This versatile pump is offered with a variety of material and design options that make it ideal for general industrial, high pressure cleaning, and typical applications involved in the production of oil and natural gas.

Specifications

	English Units	Metric Units		Continuous	Intermittent
Stroke Length		95 mm	Rated bhp		120 HP
Rated Rod Load	9260 lb	4200 Kg	Maximum Speed		405 /500rpm
Pump Weight	926 lb	420 Kg	Minimum Speed		90 rpm
Gear Reduction Ratio	3.652:1 / 2.963:1		Max. plunger size x stroke length.	55x95mm	
Max. Fluid Temp	°F	90 °C	Pinion shaft extension:	50x120 mm	
Mechanical Efficiency		85%	Keyway (width x depth x length)	36x12x270 mm

*Flows are based on 100% volumetric efficiency. Brake Horsepower /Kilowatts Required is based on 90% Mechanical Efficiency.Consult YaLong for continuous service speeds in excess of 418RPM. Not all plunger sizes are shown, Additional plunger sizes are available.Please contact YaLong for more details. Standard configuration is a single extended crank, double extending crankshaft please contact YALONG. Discharge and Suction Connection mode and size please contact YALONG.

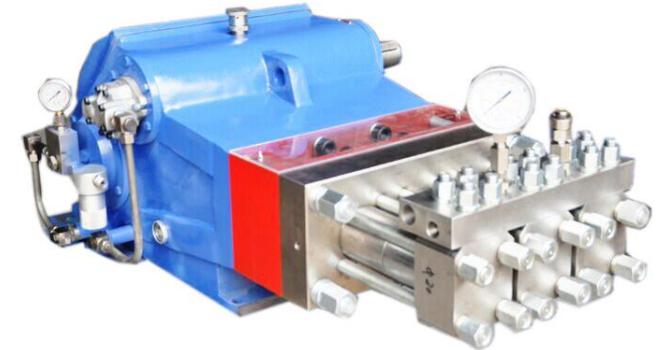

NANJING YALONG PETROCHEMICAL EQUIPMENT TECHNOLOGY Co.,LTD. (HIGH PRESSURE RECIPROCATING PUMP MANUFACTURER)

The YALONG Model T265 is a single acting triplex plunger pump rated at 265 HP in intermittent duty services . This versatile pump is offered with a variety of material and design options that make it ideal for general industrial, high pressure cleaning, and typical applications involved in the production of oil and natural gas.

Specifications

	English Units	Metric Units		Continuous	Intermittent
Stroke Length		120 mm	Rated bhp		268 HP
Rated Rod Load	16090 lb	7300 Kg	Maximum Speed		371 rpm
Pump Weight	1984 lb	900 Kg	Minimum Speed		90 rpm
Gear Reduction Ratio	4.043:1		Max. plunger size x stroke length.	70x120mm	
Max. Fluid Temp	°F	90 °C	Pinion shaft extension:	65x100 mm	
Mechanical Efficiency		85%	Keyway (width x depth x length)	16x6x90 mm	

Performance Ratings (Volumes indicated are displacement of incompressible fluid)

Pumping Solutions from Yalong

Yalong is building one of the world's leading reciprocating pump organizations, and we are doing it by raising the traditional standard for value in the industry. We deliver value in a number of ways; through our broad product offering, ability to provide complete packaged solutions, and our worldwide network of sales and support locations. Most important however are our people and the dedication and experience they can bring to your applications. Contact a Yalong representative to learn how we can redefine the definition of value on your next pumping application.
